Morning, day, evening and elimination support.

07 Choosing Your Program — PG 10
Standard, Optimum and Relaxed versions.

08 Begin Your Reset — PG 11
A Structured Decision

01

Why people choose *a reset*.

We live in a fast-paced world filled with constant pressure, stress and daily demands. Over time, these demands can take a toll on the body and mind — leaving many people feeling heavy, sluggish, tired and out of balance.

The body is naturally designed to process what it receives, use what it needs, and eliminate what it does not. Yet modern life places a heavy burden on this natural process. Processed foods, excess intake, alcohol, stimulants, artificial additives, environmental exposure, lack of sleep, stress and irregular routines can all affect how we feel and function.

When the body is constantly dealing with too much, it can become harder to feel clear, light and in control. Many people notice this through low energy, weight gain, bloating, poor digestion, cravings, irritability, restless sleep or simply feeling out of rhythm with themselves.

The Lemon Detox Cleanse is designed as a structured pause from regular eating habits and daily excess. By replacing solid food for a defined period with the Lemon Detox drink, the program gives the body a simple routine to follow while reducing the demands of constant eating and digestion.

For many people, this creates an opportunity to reset — physically, mentally and emotionally. It can support weight reduction, renewed discipline, clearer focus and a stronger sense of control around food, habits and lifestyle.

01

Why people choose *a reset*.

The program is not a miracle solution. It requires preparation, commitment and consistency. Its strength lies in its simplicity: a clear time frame, a clear drink and a clear structure to follow.

Because every person's lifestyle is different, the Lemon Detox Cleanse offers different program versions to suit different needs — from a more committed full cleanse to a relaxed version for those who require greater flexibility.

02

Every system benefits from *a reset*.

People choose the Lemon Detox Cleanse for different reasons — but many are looking for the same outcome: to feel lighter, cleaner, more energised and back in control.

01

Weight loss & body reduction

A key reason many people choose the cleanse is to reduce weight and feel lighter in their body.

02

More energy

Many users report feeling more energised as the program progresses, especially after the first few days.

03

Feeling lighter & less bloated

A break from heavy meals, constant snacking and daily excess.

04

Clearer focus

The simple routine reduces distractions around food and supports a clearer, more disciplined mindset.

05

Reduced cravings & better control

Helps interrupt old habits and reset the relationship with food.

06

Renewed confidence

Completing the program creates a strong sense of achievement and encourages better choices afterwards.

The benefits go beyond weight loss — *reset the body, regain discipline. feel back in control.*

03

A short, structured *cleanse*.

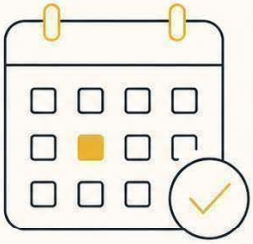

The Lemon Detox Cleanse is a short-term, structured cleanse designed to replace regular meals for a defined period with the Lemon Detox drink.

The program gives you a simple daily framework to follow. Instead of making constant food choices throughout the day, you follow a structure that helps you stay focused and consistent.

This temporary pause from solid food is intended to reduce daily intake, support digestive rest and create a focused period of reset, weight reduction and renewed control.

The cleanse is not designed as a long-term eating plan. It is a short, intentional program that requires preparation, consistency and discipline.

Different versions of the program are available depending on your goals, lifestyle and level of commitment — together they create the structure needed to reset, reduce and restore.

Defined timeframe

You choose the program version that suits your goal and lifestyle.

Simple daily drink

The Lemon Detox drink becomes your main source of intake during the cleanse.

Clear routine

The structure removes guesswork and helps you stay focused.

04

The Lemon Detox *drink*.

The drink is the foundation of the program — four key natural ingredients that supply the body with what it needs while the cleanse is in progress.

INGREDIENT 01

Madal Bal® Tree Syrup

The key ingredient, a balanced blend of Canadian Grade C maple syrup and the purest Palm syrups providing energy in the form of easily digestible carbohydrates and a high level of potassium.

INGREDIENT 02

Fresh Lemon Juice

Freshly squeezed lemons provide vitamin C and citrus polyphenols. Traditionally valued for their cleansing properties, a refreshing flavour while supporting the body's own detoxification pathways.

INGREDIENT 03

Cayenne Pepper

A small pinch brings warmth, supports circulation and adds gentle metabolic stimulation — enough to feel, never enough to burn.

INGREDIENT 04

Pure Water

Clean, pure water helps carry the formula through the body while maintaining hydration during the cleanse and supporting the body’s natural cleansing processes.

How to make the *drink*.

The Lemon Detox drink can be prepared as a full daily batch or made one glass at a time. Most people find it easier to prepare the full daily amount in the morning so the drink is ready throughout the day.

DAILY BATCH · RECOMMENDED

For approximately 2 litres.

- 140 ml Madal Bal® Natural Tree Syrup
- Juice of 3½ fresh lemons (minimum 140 ml)
- 2–3 pinches cayenne pepper
- Pure or filtered water to make up approximately 2 litres

SINGLE GLASS

To make one glass.

- 20 ml Madal Bal® Natural Tree Syrup
- 20 ml freshly squeezed lemon juice (about ½ lemon)
- A small pinch of cayenne pepper
- At least 250 ml pure or filtered water

Preparation notes — Use fresh lemon juice (not bottled). Shake or stir before serving as ingredients may settle. Serve cold, at room temperature or warm; Do not boil. Once opened, store the Madal Bal® Natural Tree Syrup in the refrigerator.

06

The daily *structure*.

The program follows a simple daily rhythm designed to support detoxification, elimination, weight loss and steady energy throughout the cleanse.

Morning · Elimination

The day begins with the sea salt water flush or, alternatively, a cup of herbal laxative tea. This step gently stimulates the body's elimination process and assists in clearing the digestive tract.

Throughout the Day · The Drink

The Lemon Detox drink can be made fresh in the morning or prepared the night before. The full daily batch can also be taken with you to work. The drink is consumed regularly throughout the day, providing liquid nourishment and steady energy while the digestive system rests.

Hydration

Additional water should also be consumed throughout the day to help maintain hydration and support the detoxification and elimination process.

Evening · Wind Down

Once the daily Lemon Detox drink has been consumed, a cup of herbal laxative tea is taken before bed. Adequate rest is encouraged while the body continues its natural cleansing and restorative processes overnight.

The routine quickly becomes simple and repetitive — allowing you to focus on detoxification and completing the **Lemon Detox** cleanse.

07

Which program *suits me?*

Choose the version that best suits your lifestyle, goals and experience level.

Each version follows the same structure — the difference lies in duration and intensity.

Full Body Cleanse

All meals replaced

- **Breakfast:** 2–3 glasses of the Lemon Detox drink
- **Lunch:** 2–3 glasses of the Lemon Detox drink
- **Dinner:** 2–3 glasses of the Lemon Detox drink

This version can be followed for a minimum of 7 days, although 10–14 days is considered the ideal duration.

Relaxed Version

One healthy meal per day

- **Breakfast:** 2–3 glasses of the Lemon Detox drink
- **Lunch:** Healthy meal
- **Dinner:** 2–3 glasses of the Lemon Detox drink

This version is typically followed for at least two weeks and provides a gentler approach while still supporting the body's natural cleansing processes.

50/50 Version

Gradual transition

- **Days 1–3:** Relaxed Version
- **Days 4–6:** Full Body Cleanse
- **Days 7–9:** Relaxed Version

Total program duration:

- 9 days if purchasing the 7 Day Pack
- 18 days if purchasing the 14 Day Pack

BEGIN YOUR RESET—

Your reset begins with *one decision*.

The **Lemon Detox Cleanse** is a structured program designed to help you step away from excess, simplify your routine and commit to a focused period of detoxification, weight loss and renewed control.

Now, you understand **the program, the drink, the daily rhythm** and **the version** that best suits your lifestyle.

Your next step is simple — choose your program, prepare your ingredients and begin.

The strength of the Lemon Detox Cleanse lies in its clarity.

No complicated meal plans.

No constant decisions.

Just a defined time frame, a clear routine and the commitment to see it through.

Whether your goal is to detoxify, reduce weight, regain discipline or create a fresh starting point, this program gives you the structure to begin with confidence.

Your reset begins with one decision.

Start today.

RESET · REDUCE · RESTORE
